This recce will be done on board of a normal car. Rally and/or participating cars are forbidden.

ALL RECCE OUTSIDE THIS DAY ARE TOTALLY FORBIDDEN. Severe controls will be enforced by the local authorities and the organisation. Recce's trips must be made at a moderate speed, with the respect of Belgian Driving Code, otherwise contestants may receive the usual penalties and fines. It is strictly forbidden to place some bearings on any stand.

During RECCE, it is totally forbidden to take in the car a Classic category competitor under penalty of departure ban for the classic competitor without any right to any refund.

For the DAY 2, the organiser will provide a roadmap which will be realized by an experienced crew member for the Legend and Challenger categories only. Videos of the recce will be online on Monday 31st January 2022 at 19.00.

Participants will have to fill in a recce form via a downloadable document on the website.

ARTICLE 16: TIME CARD

16.1. At the start of the competition, each crew will receive a time card on which the time limit to cover the distance between 2 time controls will appear.

This card shall be handed in at the arrival control of a boucle and replaced by a new one before the start of the next. The crew alone is responsible for his time card.

16.2. The time card must be available for inspection on demand, especially at the control posts where it must be presented personally by a member of the crew for stamping.

16.3. Any correction or amendment made to the time card will result in exclusion, unless such a correction or amendment has been approved by the competent marshal.

16.4. The absence of a stamp for any control or the failure to hand in the time card at each control (time or passage), regrouping or at the arrival, will result in exclusion.

16.5. The crew alone is responsible for submitting the time card at the different controls and for the accuracy of the entries.

16.6. Therefore, it is up to the crew to submit its time card to the Marshals at the correct time, and to check that the time is correctly entered.

16.7. The post marshal is the only person allowed to enter the time on the time card by hand or by means of a print-out.

16.8. Any difference between the times noted on the time cards and official documents from the competition will be considered by the stewards of the meeting who will then take the final decision.

ARTICLE 17: TRAFFIC – REPAIRS

17.1. Throughout the entire competition, the crews must strictly observe the traffic laws of the county crossed. Any crews who do not comply with these traffic regulations will be subjected to the penalties laid out below:

Speed Controls:

+ 10%: 150 pts + 20%: 300 pts + 30%: 450 pts
+ 40%: 600 pts + 50%: disqualification

Others infringement to the traffic regulations

17.1.1. 1st infringement: 150 pts
17.1.2. 2nd infringement: 300 pts
17.1.3. 3rd infringement: Exclusion

Speed controls may be established at any point. These controls will occur especially in urban centres and dangerous areas indicated in the road-book. The information provided by the TRIPY tracking system, in accordance with article 11.9.3.2. of the FIA sporting code, may have the value of "judge of fact" at the college of stewards of the meeting.

17.2. In the case of an infringement of the traffic regulations committed by a crew participating in the competition, the policemen or officials noticing the infringement must inform the offender thereof, in the same way as for normal road users.

17.3. Should they decide against arresting the driver who committed the offence, they may request the application of penalties laid out in the Supplementary Regulations of the event, if:

17.3.1. The notification of the infringement is made through official channels and in writing, before the posting of the current classification:

17.3.2. The statements are sufficiently detailed for the identity of the offending driver to be established beyond all doubt, as well as the place and time of the offence:

17.3.3. The facts are not open to various interpretations.

17.4. It is forbidden to tow transport the cars, or to have them pushed, except to bring them back into the road, or to clear the road. If this statement is not respected, disqualification of the crew will ensue.

17.5. Similarly, and following the same threat of disqualification, crews are forbidden from:

17.5.1. deliberately blocking the passage of participating cars or preventing them from overtaking;

17.5.2. behaving in an unsporting manner.

17.6. Assistance:

17.6.1 Competitors are responsible for providing their own fuel, oil, water etc...

17.6.2.1 Fuel stations are considered as authorized fueling areas but unless otherwise stated in the roadbook, assistance is prohibited.

17.6.2.2 In the forbidden areas mentioned in the road book, all repairs and refuelling must be carried out exclusively by the crew using only equipment carried on board the competing vehicle.

Judge of facts will monitor the respect of these prescriptions. And any infringement will result of a penalty which may lead to exclusion.

Fuel stations are considered as authorized fueling areas but unless otherwise stated in the roadbook, assistance is prohibited.

17.6.2.3 Definition of forbidden assistance.

1°) Any person other than the driver and/or the co-driver of a competing car performing any work or action on that car.

2°) The use or receipt by the driver or the co-driver of any materials (solid or liquid), spare parts, tools or equipment other than those carried by the competing car.

3°) The parking of an identified service vehicle or the positioning or setting up of any materials, spare parts, tools or equipment elsewhere than in a service park.

17.6.2.4. Service and refuelling are totally forbidden during the RT.

17.6.3 In the case of a serious breakdown, competitors may be allowed to restart at the beginning of another section after repairs are completed, incurring corresponding penalties.

17.6.4 Refuelling points will be indicated in the road-book.

17.6.5 Each vehicle must be equipped with a floor protection carpet or floor protection cover to be placed under the car during any services or regroupings. Any lack of this, duly reported by an official on duty, will result in a penalty of 150 pts.

17.6.6. Crews and their car may receive outside help in the following cases:

17.6.6.a. The service car will receive a detailed map of the itinerary with the indications of the authorized service points.

17.6.6.b. The entry of a service car on the road during a regularity test will automatically lead to the disqualification of the responsible car from the event.

17.7. The Royal Automobile Club de Spa must ensure the public order as well as organising the traffic circulation without assuming responsibility. Special arrangements exist for the privilege service area in Bastogne. The Royal Automobile Club de Spa will organise a hospitality area.

All areas in this hospitality area must be negotiated and book through the promoter. He will give, upon request, the prize list following dimensions and the degree of privilege at these areas.

LEGEND – YOUNGTIMERS - CHALLENGER

Any area not ordered and not paid in conformity with general sales conditions and the specific contract in the hospitality area at Bastogne will be deemed null and void. Any infringement will lead to prescribed penalties.

17.8. The competitor is responsible for his own assistance service. Any act or non-observation of instructions will penalise the competing car:

- 1st infringement: 500 €
- 2nd infringement: 750 €
- 3rd infringement: 1250 €

17.9. Service cars must be equipped with:

- a canvas cover of minimum 3x3 m
- a container for liquids approximately 50 x 50 cm;
- a container for fuel if fuel is spilled during refuelling;
- a container for liquid waste with a capacity of at least 10 litres and a bag for solid wastes

Service will happen in the following manner:

- At every service area, the canvas cover must be set up under the car when repairs are done on the car;
- When fuel can be spilled, containers or any other mean must be used in order not to spill any;
- All the service areas must be left cleaned. Waste and material must be carried into the service car;
- When soil pollution happens, the team must inform the clerk of the course and must give all the details related to the pollution;
- Arbours and awnings must be weighted by 5 kg per m2 of canvas surface
- All these regulations similarly apply in case of provisional repairs happening outside of the service areas;
- "Route d'Arlon" will be set in one way. The left side (from the Circuit des Ardennes roundabout) will be used as a service park during the race.
- Access to private properties and/or garages, and areas in front of shops, must be always clean. Furthermore, it is important to park on the asphalt and not on the ground.
- Setting up may begin on Thursday 3th February 2022 at 9.00. Evacuation must be done on Sunday 6th February 2022 at 20.00 at the latest.

ARTICLE 18: START

18.1. The official time will be the satellite time displayed on the tripy tracking transponder, this time is displayed on demand when you press "Time" on the transponder.

18.2. The start will be given from 30 seconds to 30 seconds except for the first 30 **Legend - Youngtimers** for Day 1 and the first 30 of the provisional ranking (**Legend & Youngtimers category together - virtual ranking without coefficient for any category for safety reasons**) excluding road penalties of Day 1 for the starting order of Day 2. These crews will start the whole day with a 1 minute gap to the competitor in front of them.

These vehicles will be identified by a specific sticker which will be placed by the organiser in the pre-start area.

The start will be given from 30 seconds to 30 seconds except for the first 10 Challenger numbers for Day 1 and the first 10 of the provisional ranking excluding road penalties for Day 1 for the starting order of Day 2. These crews will start the whole day with a 1 minute gap to the competitor in front of them.

These vehicles will be identified by a specific sticker which will be placed by the organiser in the pre-start area.

The time of presentation at the pre-start park will be specified on the control booklet, as well as the time of the OUT pre-start park.

18.3. The exact starting time will appear on each crew's time card who will have been targeted by the marshals at the entrance of the assembly area.

18.4. Any late arrival, ascribable to the crew, at the start of the competition, of a day, of a boucle, or a service area shall be penalized by points for every 30 seconds late. The start at this time control will be refused for any crew reporting more than 15 minutes late. The crew will have to contact the race director to request to continue the rallye from one of the following sections.

18.5. Crews must get their passage checked at all points mentioned on their time card and in the correct order, otherwise they will be disqualified.

18.6. The ideal time for covering the distance between the 2 time controls will appear on the time card.

18.7. Hours and minutes will always be displayed as such: 00.01 -24.00 only the 30 seconds period which have elapsed will be counted.

18.8. All the crews will receive a road book containing a detailed description of the itinerary to be followed; this itinerary is compulsory, otherwise the crew will be disqualified.

18.9. For the DAY 2, the organizer will provide a notebook (Legend, Youngtimers and Challenger categories only) made by an experienced team member.

18.10. The starting order for Day 2 will be determined on the basis of the classification excluding road penalties from Day 1 (Legend & Youngtimers mixed for these categories).

ARTICLE 19: CONTROLS – GENERAL PROVISIONS

19.1. All controls, i.e. passage and time controls, start and arrival of regularity tests, regrouping and neutralization zone controls will be indicated by means of FIA approved standardised signals.

19.2. The beginning of the control area is marked by a warning sign on a yellow background. At about 25m, the position of the control post is indicated by an identical sign on a red background.

19.3. The stopping time inside any control area must not exceed the time necessary for carrying out control operations.

19.4. It is strictly forbidden, under threat of exclusion:

19.4.1. To enter a control area in any direction other than the one indicated by the event;

19.4.2. To cross again or re-enter a control area once checking-in has taken place at this control.

19.5. The ideal check-in time is the responsibility of the crews alone, who may consult the official time on the Tripy transponder by pressing "Time".

19.6. The post marshals cannot give them any information on this ideal check-in time.

19.7. Control posts should open 15 minutes before the ideal time for the passage of the first crew.

19.8. Unless the Event Director decides otherwise, they will cease to operate 15 minutes after the ideal time for the last crew.

19.9. Crews must follow the instructions of the Marshal in charge of any control post. Failure to observe his instructions may lead to disqualification at the discretion of the Stewards of the Meeting.

ARTICLE 20: CHECK POINTS (CP) – SLOW ZONES (SZ) - TIME CONTROLS (TC) – DISQUALIFICATION

20.1. Check Points

20.1.1 During these controls, auditors stationed must simply stamp the logbook, as soon as it is handed in by the crew. The absence of this stamp will cause a penalty of 300 points. **The crew is solely responsible for its score sheet.**

20.1.2. The score sheet must be available upon request, especially at all the checkpoints, or it must be presented personally by a member of the crew for stamping.

20.1.3. Unless approved by a Marshall, any rectification or any modification on the score sheet will result in disqualification.

20.1.4. The absence of any stamps from any control post or not handing in the time card to each control (time, passage) position, position of reunification or on arrival, will result in a penalty of 300 pts.

20.1.5. The presentation of the different controls score sheet and the accuracy of the entries remain under the responsibility of the crew.

20.1.6. It belongs which in time to submit required his score sheet to the Marshall responsible and verify that registration is done correctly.

20.1.7 Only the Marshall responsible will be allowed to register on the score sheet, manually or by means of a printer device.

20.1.8. Any difference between the inscriptions, on the one hand, on the crew score sheet and, on the other hand, on the official records of the competition will be investigated by the college of the steward of the meetings who will judge, should it be necessary in last resort.

20.1.9. Crews who systematically or regularly fail to present the score sheet can be excluded from the rally. This decision will be left at the Race Director's discretion.

20.1.10. Check Points may be in Regulatory Tests or in road section

20.1.10.a. Check Points in Regulatory Tests are all informed in the Roadbook.

20.1.10.b. Check Points with mandatory stop for check-in in road section can be either reported in the roadbook or secret type, always indicated by standardized panels F.I.A. and inevitably encountered if the competitor respects the course of the roadbook.

20.1.10.c. Secret Check Points in Regulatory test or in road section can also be virtual, by satellite control using the Tripy tracking system or by a AMB-MyLaps-RIS tag. In this case, there is no need to mark the stop and they are not informed in the roadbook.

20.2. Slow zones

Slow zones replace CP in RT where it's possible to install them.

20.2.1. Materialization of Slow zones: A slow zone is always indicated in the roadbook with entry and exit distance of the zone.

A red panel to the right (at least) and to the left (as far as possible) of the road will mark the entrance to the slow zone (see the description in appendix).

A green panel to the right (at least) and to the left (as far as possible) of the road will mark the end of the slow zone (see the description in appendix).

20.2.2. Distance of slow zone: depending of the case, 200m or 300m, the distance is specified in the roadbook.

20.2.3. Average speed to respect: 36 km/h so 10 seconds per 100m, 20 seconds for 200m and 30 seconds for 300m. The time to be respected is always indicated in the roadbook.

20.2.4. Methodology: the only measure to respect is the time between the entry and the exit of the slow zone. It is up to the crew to manage its evolution between the 2 panels, either to stay in motion or to stop in the zone during a lapse of time. However, be careful because you're not alone on the road and any competitor can manage differently the slow zone.

20.2.5. Penalties: the time is taken by satellite with tripy system.

LEGEND BOUCLES®
@BASTOGNE
Historic Rally
4 – 5 - 6 February 2022

LEGEND – YOUNGTIMERS - CHALLENGER

For non respect the time imposed to travel the slow zone: 300 penalty points. These penalties are weighted by any coefficient. For Day 2 (Sunday), for legend, Youngtimers & Challenger categories, these penalties are doubled like all the results and penalties of Day 2.

20.2.6. The systematic or repeated absence of respect of time imposed in slow zones may result in the disqualification of the crew. This is left to the Race Director appreciation.

20.3. Time controls

At these controls, the Post Marshals shall mark on the time card the time at which the card was handed in.

20.4. CHECK-IN PROCEDURE

20.4.1. The check-in procedure begins the moment the vehicle passes the zone entry sign (yellow board)

20.4.2. Between the zone entry sign (yellow board) and the control post, the crew is forbidden to observe a halt of any kind or to drive at an abnormally slow speed.

20.4.3. The clocking of the card can only be carried out if the 2 crew members and the car are in the control zone and within the immediate vicinity of the control table.

20.4.4. Crews won't get any penalties for being early as long as the entry time of the car in the control area corresponds to the ideal check-in time around ideal time. Similarly, crews are not penalised for being late as long as the moment the time card is handed in to the marshals is located before or after the ideal check-in time.

Example: A crew that should be controlled for 18h58'30" will be considered on time if the stamping happened between 18h58'00 and 18h58'59". For a stamping at 17h32'00", between 17h31'30" and 17h32'29"

It is to the responsibility to the crew to specify the ideal check-in time as long as it is within the regulatory interval.

20.4.5. Then either by hand or by means of a print-out device the Post marshal write on the card the actual time at which the card was handed in and nothing else.

20.4.6. The ideal check-in time is the time obtained by adding the time allowed to complete the road section to the time of the departure of this section, these times are being expressed to the minute.

20.4.7. No penalties will be given to the crew for delay if the act of handing the card to the Post Marshal takes place during the ideal check-in period.

20.4.8.a. If a competitor reports at a Time Control after due time, the lateness is added to that competitor's Accumulated Lateness. No lateness penalty will be applied for the first 40 minutes.

After a penalty of 30pts will be applied by 30 seconds and / or part of 30 seconds by RT (day).

Controls will be close 15 minutes later than the ideal time of the last competitor. Beyond this, obligation for the crew to re-start at next boucle start.

A time control missing will be penalized by 600 pts. However, art 20.6 & 22.4 may be enforced.

20.4.8.b. For early arrival: 60 pts by 30 seconds, or fraction of 30 seconds.

20.4.9. A crew penalized for early arrival can be neutralized by the Event Director and made to start at the right time.

20.4.10. At the end of the DAY-1 and DAY-2 or when written "early check in" on the roadbook, the competitors can check in early with no penalty.

If a marshal or an official gives the injunction to return to the stamping area in advance, the crew incurs no penalty but must indicate to the marshal, under his own responsibility, the ideal time to be reported on the roadbook.

Crews who did not reach the last time control of the DAY-1 must notify the Race's Director if they want to start again at the DAY-2. Written enquiry (enquiry form or e-mail to legendracecontrol@gmail.com) must be sent at the latest on Saturday 5th February 2022 at 22.00.

20.4.11. Lastly, each crew who did not observe the rules for the check-in procedure as defined above (and especially the, one about entering the control zone before the actual check-in time), the Chief Marshal at the control post must write an official report to be sent immediately by the Event Director to the Stewards of the Meetings Panel, which will impose any appropriate sanction.

20.5. TIME OF LEAVING CONTROLS

20.5.1. If the next road section does not start with a regularity test, the check-in time entered on the time card shall continue both the arrival time at the end of the road section and the starting time of the following one.

20.5.2. On the contrary, when a time control is followed by a start control of a regularity test, the following procedure will be applied:

20.5.2.a. These two posts shall be included in a single control area, in which the signs will be laid out as follows:

20.5.2.a.1. Yellow warning sign (beginning of zone)

20.5.2.a.2. Red sign with dial (time control post) at approximately 25m

20.5.2.a.3. Red sign with flag (start of the regularity test) at approximately 50 to 200m

20.5.2.b. At the time control of the end of a road section, the Post Marshal will write on the time sheet both the check-in time of the crew and its provisional starting time for the following road section. There must be a 3' gap to allow the crew to prepare for the start of the RT. Furthermore, in case of a puncture, the crew will be allocated a maximum of 5' extra.

20.5.2.c. After their check-in at the time control the crew will immediately go to the start of the RT. The Marshal in charge of this post will enter the time foreseen for the start of the RT on the event sheet, which should correspond to the estimated starting time for the road section according to the procedure laid down in the regulations.

20.5.2. d. In case of an incident, should there is a divergence between the two entries, the starting time of the RT will be binding, unless the Stewards of the Meeting decide otherwise.

20.6. Voluntary interruption during a section

All crew who can't pursue the entirety of a section for technical or any other reason will be allowed to resume the competition by Event Director. Crew may resume the rally only at the first TC of next section and as much as possible following their starting order.

In addition, for all missed control penalties prescribed in Article 29 will be applied.

ARTICLE 21: REGROUPING CONTROLS

21.1. Regrouping controls may be set up along the route. Their entry and exit controls shall be subject to the general rules applying to control posts (Art. 19 & 23). Inside these regrouping park, engines may be started by an external battery that cannot leave with the car and should be left at the park.

21.2. The purpose of these regroupings is to reduce the intervals which may have occurred between crews due to late arrivals and/or renunciations. Thus, the starting time from the regrouping control and not its duration must be taken into consideration.

21.3. On their arrival at these regrouping controls, the crews will give their time card to the Post Marshal. At that point, they will receive information about their departure time. Then they must immediately and directly according to the instructions of the marshals drive their car to the regroup area. Engines must be stopped. The organizers may give them a new card either at the entrance or the exit of the regroup area.

ARTICLE 22: REGULARITY TESTS (RT)

22.1. Regularity sections will be included in each section. They will be on roads closed to normal traffic.

22.2.1. For the Legend & Youngtimers categories, competitors must reach an "ideal time". A specific time (minutes and seconds) will be defined by the organizer. Competitors must get as close as possible to this ideal time.
There is no more average speed to reach

22.2.2. For the Challenger category (average speed 80 km/h maximum), an average speed control will be organised. Competitors must get as close as possible to this average and to this ideal time

22.3. A calibration route and its road-book will be available at the sporting control and on the website.

22.4. Missing RT: 600 pts of penalties

According to article 20.6, all crew who for technical or any other reason is not able to pursue the entirety of a boucle will resume the competition with the agreement of Event Director. Crew may resume the rally only at the first TC of next boucle and as close as possible to their starting order.

This 600pts penalty will outdo the penalties for missing time controls.

For DAY 2 the penalty will be 200 pts.

22.5. In the Regularity tests, both members of the crew must wear safety equipment (Art.5) otherwise they could be disqualified.

22.6. Crews are forbidden to drive in the opposite direction to that of the event. Doing so will grant them disqualification.

22.7. Starts of RT will be given as follow:

22.7.1. When the car with its crew on board stops in front of the starting control, the Marshal will enter the time scheduled for the start of the car in question on the RT sheet (hour and minutes). He will hand this document back to the crew (within the 30 seconds before the start) and will countdown aloud: "30" - "15" - "10" and the last 5 seconds one by one.

22.7.2. When the last 5 seconds are over, the starting signal shall be given upon which the car must start immediately.

22.8.a. The start of the RT at a given time may only be delayed by the Post Marshal in a case of "force majeure".

22.8.b. The start of all RTs show is a flying start. The start will be shown by a green board with flag.

22.9. In the event of lateness on the part of a crew, the Post Chief will enter a new time, the lateness then being considered as lateness on a road section.

22.10. A false start, particularly one made before the Marshal gave the signal, shall be penalized by 60 pts. This penalty does not exclude heavier penalties being inflicted by the Stewards of the Meeting, especially if the offence is repeated.

22.11. RT will end in a flying finish, stopping between the yellow warning sign and the stop sign special forbidden on pain of disqualification.

22.12. For both categories, at a distance of 100 to 1000 meters after the finish signal, the crew must stop at a control ('STOP') indicated by a red "STOP" sign.

22.13 For the Legend + Youngtimers + Challenger categories the crew must ask to write the arrival time on the score sheet.

22.14. If the time entry cannot be made due to a negligence from the crew, the following penalties will be applied:

22.14.1. At the start: exclusion

22.14.2. at the arrival ("STOP"): 300 pts penalty.

22.15. For the Challenger category, every second in advance during the regularity test shall be penalised by 1 point, and similarly 1 point of penalties per second of delay.

- Maximal penalty by executed RT (total of the time control): 500pts for DAY1 and 1000pts for DAY2
- Penalty for missing RT: 600pts for DAY1 and 1200pts for DAY2

For Legend category, advance will not be penalised.

In case of unappropriated time (Legend & Youngtimers category) or speed average (Challenger categories) as the result of weather conditions, the Stewards of the Meeting panel could, following the proposal of the Race Direction, fix a target time/average in order to get a significant order even after the RT (for example, in the case every competitor would have flat-rate penalty).

For both categories, for RT 11, the highest penalty is 1000pts.

22.16. During a RT, external assistance is forbidden. Any infringement will be punished by the Stewards of the Meeting with exclusion. All repairs and refuelling must be carried out exclusively by the crew using only equipment carried on board the competing vehicle and exclusively by the crew only. (cf. art. 17.6.2.2.).

22.17. The starting intervals for RT must respect the same dispositions as those laid down for the start of the day.

22.18. Any crew refusing to start in a RT on the time and in a position allocated to them will be given a penalty by the competition's Director of at least 500 pts, and which may go as far as exclusion if the Event Director requests it to the Stewards of the Meeting panel, whether the RT happens or not.

22.19. Any crew who refuses to leave normally in the 20 seconds following the starting signal will be pushed out of the timekeeping area in order to clear it and the crew will be excluded immediately. Art. 20.6 and 22.4 will be applied.

22.20. Interruption of a RT:

22.20.1. When a RT is definitively stopped for any reason whatsoever before the last crew covered it, a classification for the RT may however be established by allocating to each crew, which has been unable to complete the RT because of the interruption on decision of the Event Director, based upon a fair time set before the interruption.

22.20.2. This classification may be established even if only one crew could cover the RT in normal racing conditions.

22.20.3. Only the Event Director may decide to apply or not this disposition.

22.20.4. However, a crew who is totally or partially responsible for stopping a RT may not benefit from this measure. They will be given the time they might have made if it is greater than the longer than the time accorded to the other crews.

22.20.5. If the use of the red flag is needed, the following procedure will be applied:

A red flag will be available every 5 km.
The red flag will be showed only to the crews
When a driver passes a red flag, he must immediately slow down and keep this reduced speed until the end and follow the instruction of the Stewards of the road or of the safety cars' drivers.

In the event of non-compliance, the Stewards of the Meeting panel will decide on a penalty.

22.21. A 300-pts penalty will be applied and added to the normal penalty in the RT for non-respect of lap's number or of the RT's route in the RT.

This penalty can be cumulated per the numbers of missing laps or the number of violations of the route in case a competitor cuts in the RT.

22.22. During the RTn, any incident due to a competitor left before (off road without gravity, stuck, spin,...) not causing interruption of the RT will be treated by the Race direction as a fact of racing and will not be subject to any inclusive time.

ARTICLE 23: PARC FERME

The access to the start & regrouping park is free, nevertheless the assistances are forbidden in the Parc Place Mc Auliffe in Bastogne. There will be no closed park at the finish.

VI. SCRUTINEERING

ARTICLE 24: SCRUTINEERING BEFORE THE START AND DURING THE EVENT

24.1. Any team taking part in the event must arrive at the signing on with the complete crew at the Hôtel de Ville, Function Room – Rue du Vivier, 58 in Bastogne accordingly to the time written in the convocations received with the confirmation of entry. **Respect of the time schedule is mandatory.** Being early to scrutineering may result in a penalty of 125 points.

On the contrary; being late will be penalised by 1 point per minute. **These measures are taken to respect the good unwinding of the scrutineering.**

24.2. Any car reporting more than 30 minutes late than the time given in the convocation to the scrutineering will not be allowed to start, except in case of force majeure duly recognized as such by Event Director.

26.7. The crew must be present at the final time control to be classified.

24.3. After scrutineering, if a vehicle is found not to comply with the regulations, the Stewards of the Meeting may set a new presentation time before which the vehicle must be made to comply.

24.5. The scrutineering carried out before the start will be of a completely general nature (checking of licenses, valid driving license, brand and model of the car, apparent conformity of the car with the group in which it is entered, essential safety items, conformity of the car with the Belgian traffic regulations, etc.).

24.6. This shall be followed by:

24.8. Should identification marks (see art. 12.7) be affixed, it is the responsibility of the crew alone to see that they are protected until the end of the event. Should the markings disappear, the car will be excluded from the event immediately.

The crew is also responsible for putting back all the elements which were checked at the scrutineering.

24.9. Any fraud discovered, and especially presenting as untouched identification marks which have been modified, will result in the exclusion of the crew, as well as the exclusion of any participants or crew who were involved in the infringement even if it was only to facilitate the fraud. This will not prejudice the fact that the National Sporting Authority, to which the entrant or accomplice belongs, may ask to impose heavier sanctions.
